UNCAS POWER COMPANY

Aggravated at Action of Assessors—
Complaints to Board of Relief.

The board of relief held its third
meeting in the rooms of the board of
trade on Monday evening. Among
those to appear with reference to the
abatement of their taxes were the first
Spiritualistic society, Joseph Mullen, A.
C. Andrews and the Uncas Power com-
pany, represented by Attorney C. W.
Comstock and Mr. Robbins, treasurer
of the company.

The last named men entered a stren-

uous protest against being assessed
for \$101,000, which is an increase of
\$25,000, the officials of the company
only having put in their property at
\$76,000. The conference between the
Norwich gentlemen and the members
of the board of relief was a spirited
one and the matter is still undecided
and will be referred to Town Council
A. J. Bowen for his opinion.

Mr. Robbins stated under oath, at his
own suggestion, that the water wheels
of the company were an actual ex-
pense of \$21,000 to the company, and
that all of the electrical appliances of
the plant cost the company but \$19,000.
When questioned more closely regarding
same, Mr. Robbins replied that he
ought to know, as he was the treasurer
of the company, and that he paid the
bills.

The representatives of the company
were of the opinion that all the prop-
erty should not be assessed in the
town of Willimantic, advancing the
claim that the company furnishes
power to the city of Norwich and
intimating that that city should com-
pensate for the assessments, notwith-
standing the fact that the water wheels
properly is situated in the town of
Willimantic and that the land owned
and that the land overflowed is also in
the same town of Willimantic.

The board of relief and presumably
the board of assessors based the as-
sessment upon the fact that the com-
pany had improved the property and
that it should accordingly be assessed
for such additional improvement and
further that the company and its ma-
jor property rights are all situated in
the town of Willimantic and that it is
a company that generates and stores
up a commodity for sale—namely pow-
er—all within the town of Willimantic.
The board of assessors, however, held
public or private utility that may de-
serve to be assessed.

Mr. Comstock wanted to be taxed for
acreage only and not for any improve-
ment and he claimed that the \$101,000
assessed on the property was based on
rights should be eliminated from the
assessment entirely.

The board of relief will hold another
meeting next Monday in the forenoon.
Jointly with the board of assessors,
when the various protests will be care-
fully considered in their several phases.

the mass Mrs. John O'Rourke ren-

NINE FEVER CASES

But All of Mild Form—Strict Quar-
antine Maintained.

Willimantic has nine cases of scar-
let fever, all of which are mild; five
of the patients are under quarantine.
The cases were reported by Dr. W. J.
Fleming, pastor of the church, in a
released from quarantine. Inasmuch
as several of the children who are ill
with the disease are attending school,
the board of health has decided to
suspend school for four weeks end-
ing on Monday, Feb. 21. Dr. W. J.
Fleming, chairman of the town school
committee, to close these schools for
four weeks, and a resolution was
passed at school this Monday.

This decision was arrived at as a
result of the report of the nine cases.
Miss Elizabeth Rawson, libra-
rian of the state normal school, and
Henry F. Potter, a student at the
B. I. Bill and a pupil in the fourth grade
of the Willimantic street school, are the
patients. The other seven cases have
been placed under quarantine. A

ATKINS SILVER SAW

Here is a saw that you can depend
upon. You'll find it sharp, easy run-
ning and fast cutting. ATKINS
SAWS are made of SILVER STEEL,
—better steel than you'll find in most
saws. The blade is so tapered that it
doesn't bind in the wood. They are
the right kind of saw, and while they
may cost a trifle more than the "bar-
gain" kind, they are the kind it pays
to buy.

We have the regular Atkins Saws
from 50c to \$2.00; the Buck Saws at
\$1.00; Cross Cut Saws 25c to 40c per
foot; Compound Key-hole Saws 35c
to 50c; Meat Saws 25c to \$1.50; Cir-
cular Saws in all sizes.

Successful Entertainments.

The Young People's course of enter-
tainments, arranged under the aus-

than the worth of some of the course
material. The result of the course
will be on the credit side.

it. The foxes are now in the woods,
excessively hard traveling and little
chance of getting the red-bucks.
